VOL. XXIX. NO. 51.

PRICE, 5 CENTS

Centralia and Chester Railroad
Company of Illinois.

First Mortgage 5 per cent. 30
Year Gold Bonds.

ISSUED JANUARY, 1889. DUE JULY,
1919. ISSUE LIMITED TO
\$12,000 PER MILE.

Interest Payable January 1 and July 1.

Farmers' Loan and Trust Co. of
New York, Trustee.

These Bonds are Payable, prin-
cipal and interest, in GOLD.

We offer a limited amount of these
bonds, subject to sale at par and accrued
interest, and with each \$1,000 bond
\$950 per value of stock.

We do not hesitate to recommend the
above bonds for investment, as we be-
lieve there is no other security in the
market absolutely as safe, that can be
bought at any such price, which will
pay the investor so high a rate of interest.
They are not a new security, as the Thirteenth Coupon was paid at the
Farmers' Loan and Trust Co., Trustee
of the mortgage, on the first day of
January.

The Centralia & Chester Railroad is
a standard-gauge road extending from
its connection with the Illinois Central
Railroad at Centralia, Ill., to Evans-
ville, Ill., with a branch to Rosborough,
Ill., and is in first-class financial and
physical condition, bonded for only
\$12,000 per mile of First Mortgage 5
per cent. bonds, which are in first and
second rank in the road, equipment,
deposits, terminals, materials, and any and
all property of the Company.

The road passes through a thickly
wooded and agricultural district, pro-
ducing some of the best crops of cereals.

The United States Government
statistics show that there were
producing districts in the five
counties through which this road
passes, 3,654,801 bushels of wheat,
2,000,000 bushels of oats, 1,300,000
bushels of oats, 114,000 tons of hay, 14,000
bushels of potatoes and 67,000 barrels
of apples. The greater part of the
product of the Centralia & Chester
Railroad is sent to the market
over the Centralia & Chester Railroad,
it being the only direct outlet to Chi-
cago of the Illinois Central Railroad,
and to New Orleans, through the
Mobile & Ohio R. I. and Missis-
sippi River.

The above country through which
this road passes is well located,
making the supply inexhaustible, and
large cities are now open at Centralia,
Marshall, Coalton, Sparta, Ros-
borough, and Schellville.

The Handel & Coke and Coal Co., an
operator with a capitalization of
\$500,000, is now successfully operating
several very large coal mines and 102
 coke ovens on the line of this road
in the same districts. This business
is a new and very important industry
in this locality and is proving of
very great value as a freight producer
to the Centralia & Chester.

A connection will be made within
the next few weeks at Salem with the
Old Colony R. I. (which is the
Lanthorn & Ohio system) giving a
direct outlet to the East. At Salem a
connection will also be made with the
Chicago & Pacific, and with the
Centralia & Chester, which will give the
Centralia & Chester another direct outlet
to Chicago, and Memphis & Memphis
& Walnut Railroads.

The short piece of road between
Evansville and Chester on the Mis-
sissippi River will be completed
before next fall. The railroad company is
just closing the purchase of a large
block of land with about one mile of
frontage on the river, and will have
a station at Chester, where the company proposes
to put in side tracks and build docks
running back to the city of
Chester. The company will put a
side track to the Penitentiary, which
will also give the road a large amount
of business from the large amount of
manufactured goods. The docks as
well as the land will be owned and
controlled by the Handel & Coke
Company, and covered by the first
bonds of the railroad company.

Few People Have Eyes Alike.

Fully one-tenth of those who wear Glasses have different vision in each eye. Sometimes it is a decided difference, in others only a slight variation. A careful examination will fail to bring out this defect—the same lenses will be adjusted to each eye—and headaches and eye strain that medics fail to relieve is the result. I test each eye separately, select proper lenses, adjust glasses to suit both eyes from one-half to a full one. Case is made.

No extra charge for testing the eyes. Gold Spectacles, \$3.00 to \$5.00. If you are having any trouble with your eyes or head call and see if I can't relieve you.

Engine House and Lockup in Ward 2.
For six months or more the disposal of the lockup and engine house in Ward 2 has been a subject of much discussion and criticism, and while nearly every one has been in sympathy with any and all efforts to remove the same, the public's indifference to the removal of the lockup and fire department has been a decided factor in the failure of the best interests of those departments had not been considered.

The public's objection has been that the building is not in good condition, and that it is not a safe place for the public to be in. First, that the location of the building was not a place of great convenience for the public to be in. The location of the building is still an open question and one about which there is an honest difference of opinion.
